

## Year 4 Special Project

In the second half of the autumn, Year Four will be learning about animals and their habitats.

Over the half term holidays, we would like you to put together a project about an animal that you are interested in. Concentrate on the habitat of the animal, the food it eats and whether it is endangered. Your project can be presented as a booklet, poster, model, PowerPoint or video.

After half term, you will need to bring in your completed project, which will be displayed in the school. The best projects might even be featured on the school website! There will be prizes for the best work!

**Have a look at these websites if you need support and ideas:-**
