

How to access Google Classroom on a Nintendo Switch

You are able to access Google Classroom on a wide variety of Gaming Consoles. One of these being a Nintendo Switch. This tutorial will work with any Nintendo Switch with an Internet Connection. This will also work with the 'lite' version of the console, or any other Nintendo console with an internet connection, however the instructions may differ from the below ...

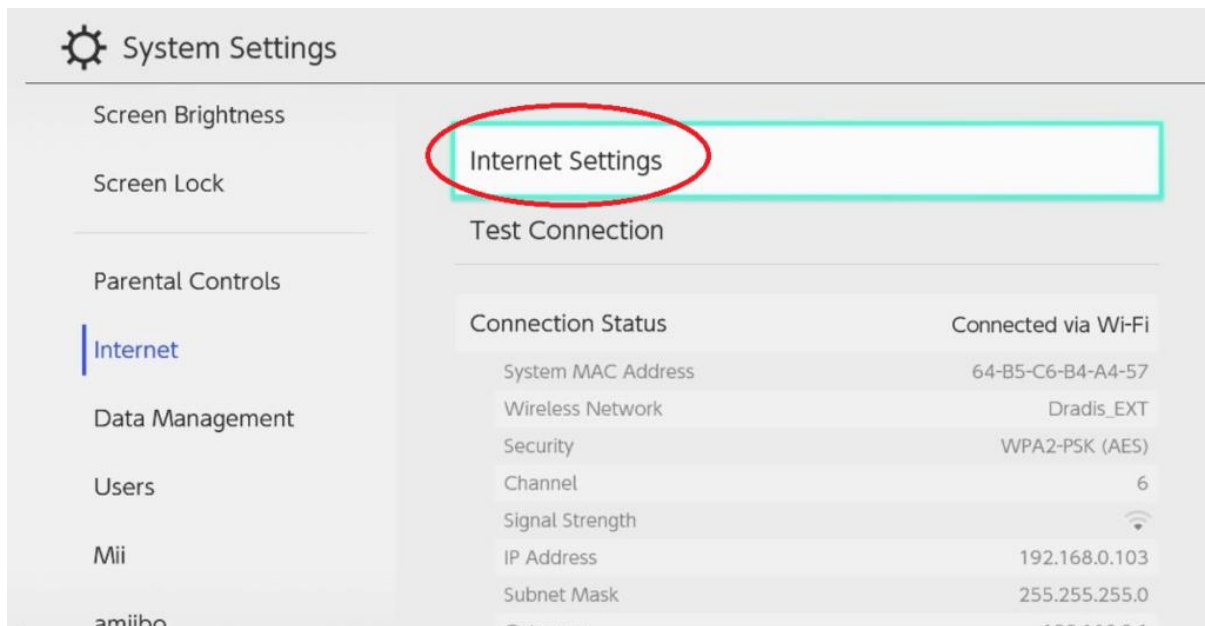

Start out by moving to the 'System Settings' option on your Nintendo Switch's dashboard ...

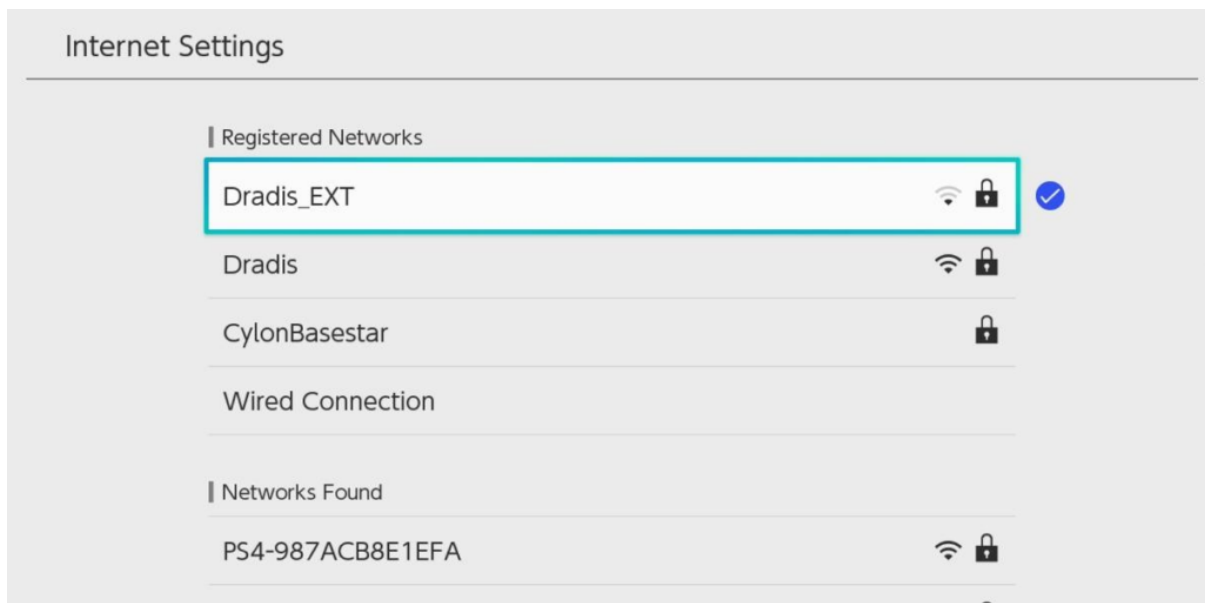

From there, select 'Internet' on the left hand side ...

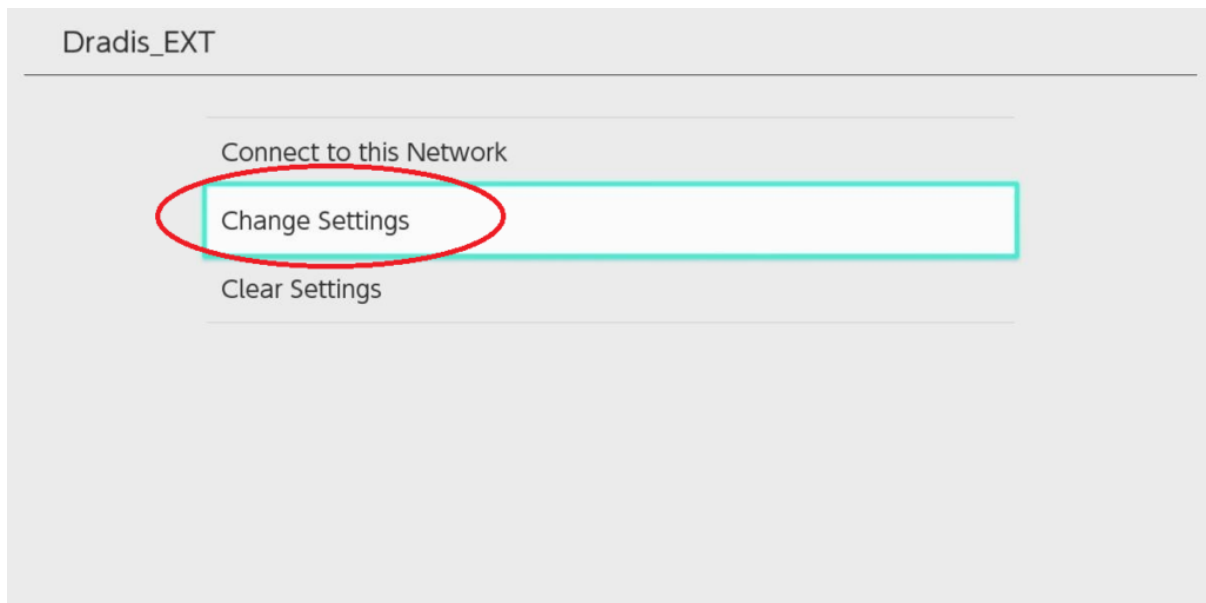

Select 'Internet Settings' ...

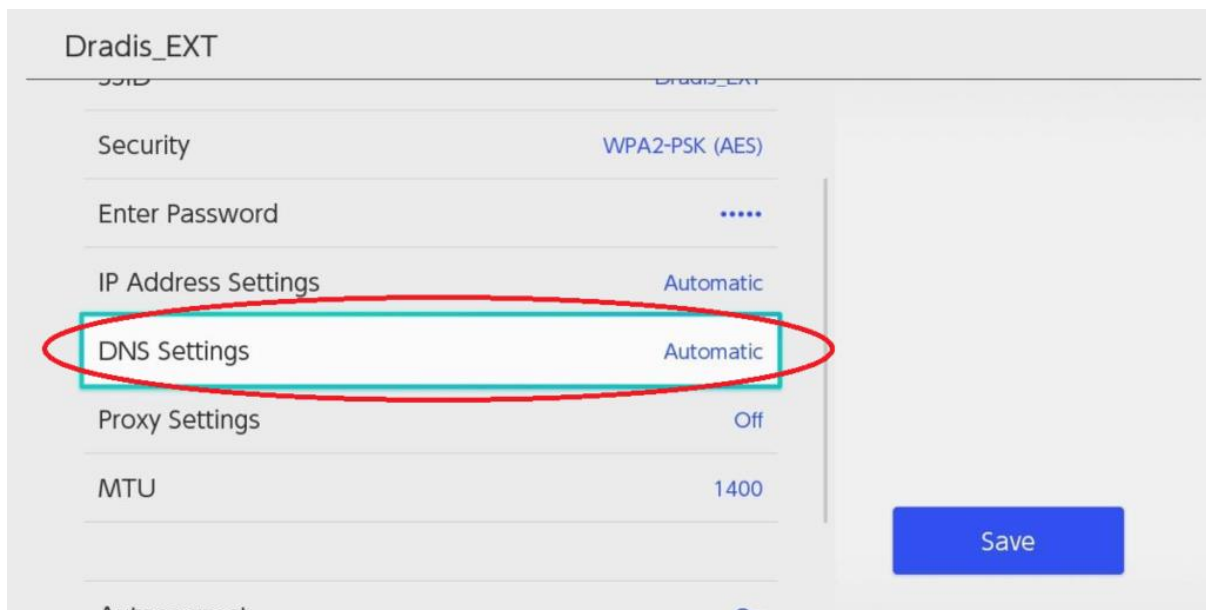

Select the Internet connection you are currently using ...

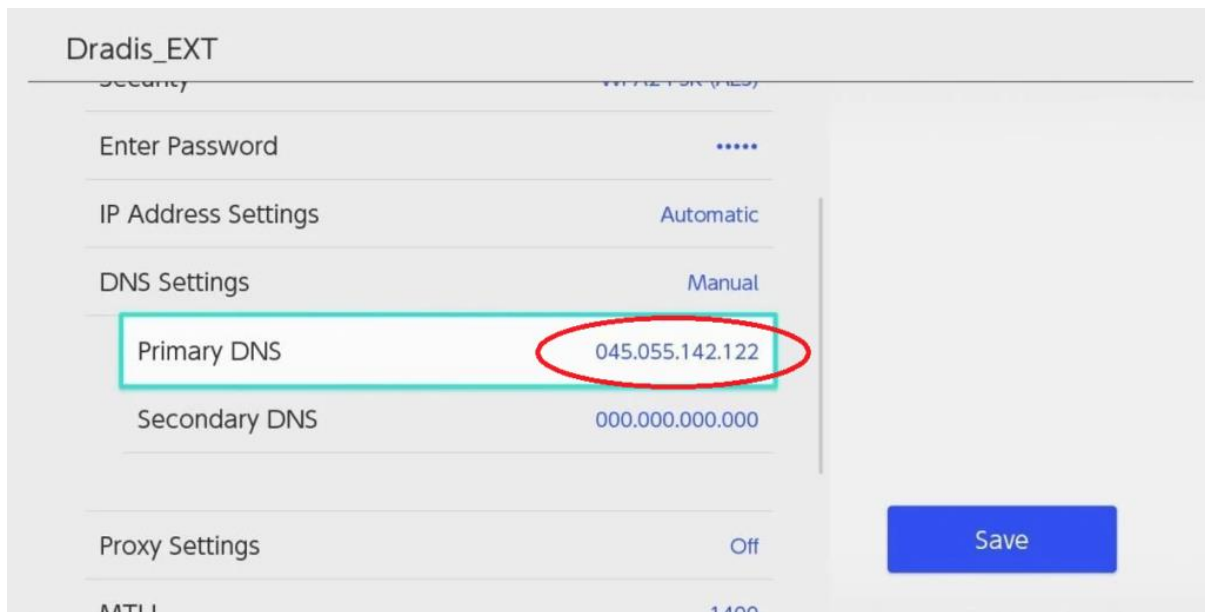

Press on 'Change Settings' ...

Scroll down to 'DNS Settings' and when prompted, change the type to 'Manual' ...

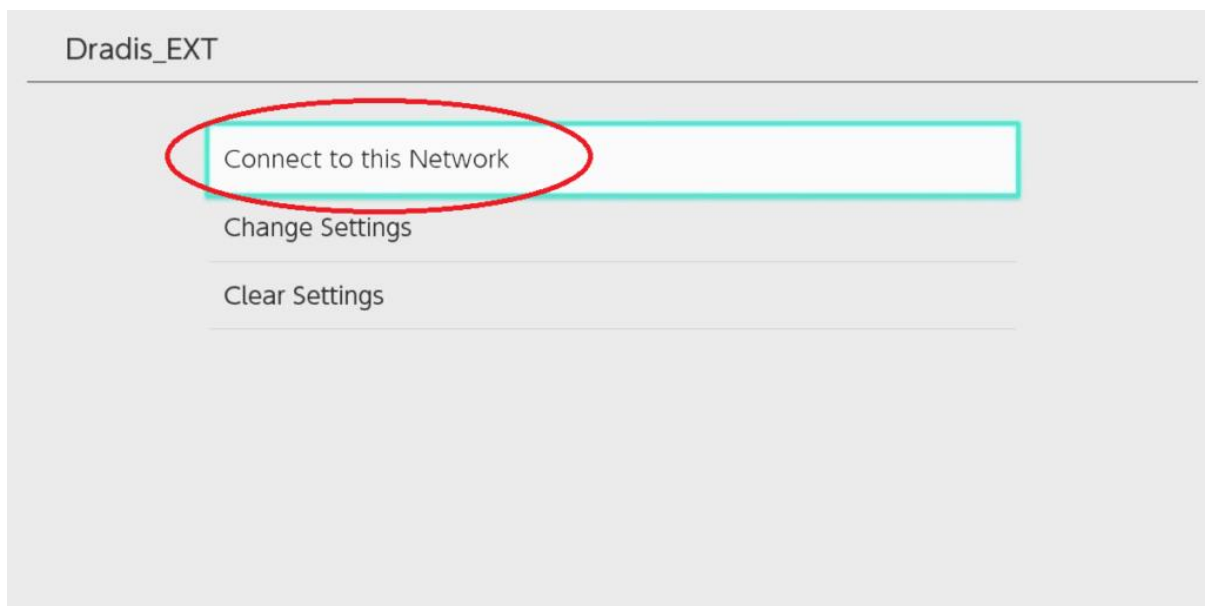

Scroll down to 'Primary DNS' and change this to 045.055.142.122 ...

The screenshot shows the 'Dradis_EXT' network configuration interface. The 'DNS Settings' section is set to 'Manual'. The 'Primary DNS' field is highlighted with a red oval and contains the value '045.055.142.122'. The 'Secondary DNS' field contains '000.000.000.000'. A blue 'Save' button is visible on the right side of the interface.

Setting	Value
Enter Password
IP Address Settings	Automatic
DNS Settings	Manual
Primary DNS	045.055.142.122
Secondary DNS	000.000.000.000
Proxy Settings	Off
MTU	1400

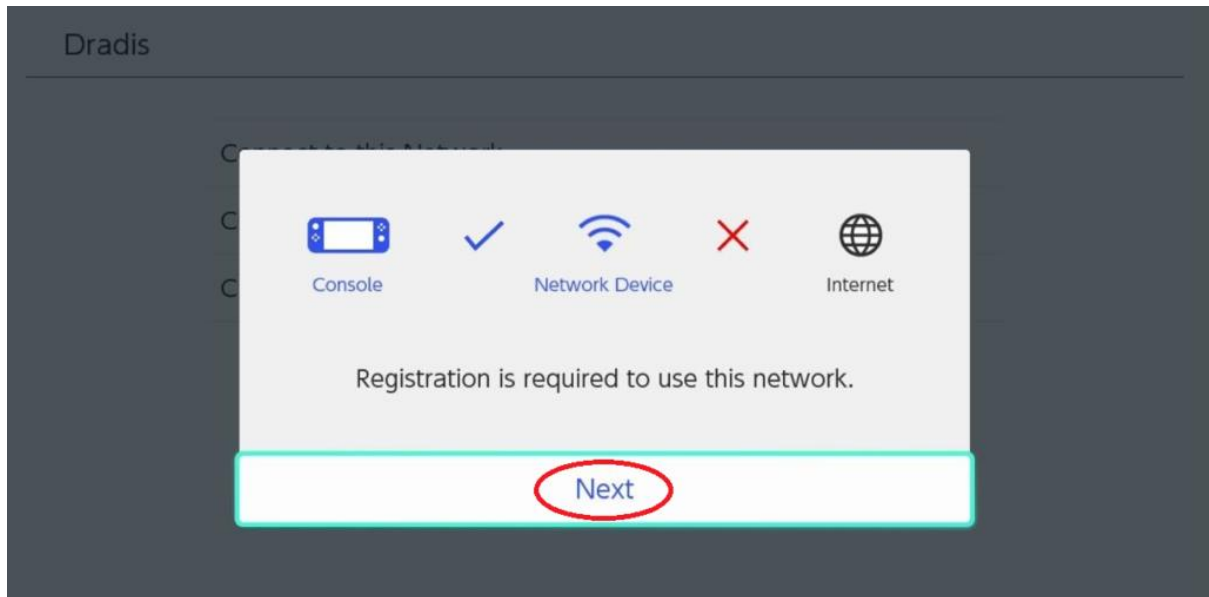

Once the settings have been saved, you will then need to reconnect back to the Network, by pressing on the below ...

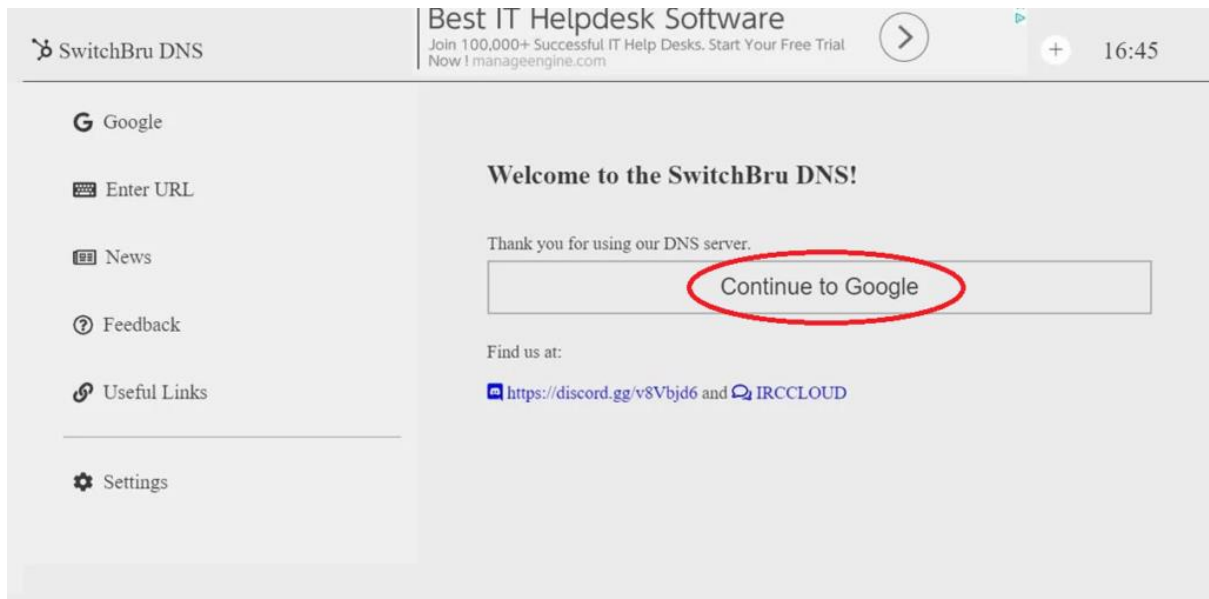

The screenshot shows the 'Dradis_EXT' network configuration interface. The 'Connect to this Network' button is highlighted with a red oval. Below it are the 'Change Settings' and 'Clear Settings' buttons.

Connect to this Network
Change Settings
Clear Settings

Once you press the above, you will be required to complete 'Registration'. You will see the below. Press on 'Next' ...

Once registered, you will be greeted with the below screen. Press on 'Continue to Google' ...

You will then be greeted with the Google home page. From there, you can visit classroom.google.com to access online learning. It is important to note that you must go back to the Internet Settings options once you have finished browsing, and change the DNS Settings back to Manual ...
