

Our Eco Team is now up and running at both Marish and Willow! Children from years 3 to 6 have been selected by their teachers to contribute towards keeping our Trust environment tidy and resourceful. Various jobs have been distributed amongst the team including: ensuring recycling bins are being used across school, encouraging the use of less paper, ensuring the playground is tidy and safe for everyone, and many others which the children themselves have thought of. We are certain that the eco warriors will make a huge difference to our Trust environment and are looking forward to sharing their successes with everyone.
