

Year 1 Spring 2 Project

Who remembers those books which had hidden flaps and pulling levers to make them more exciting when reading! Didn't you love lifting the flaps and finding the hidden characters and pulling levers to reveal who was behind the door! Next terms topic in DT is absolutely fabulous. You will be designing and making a moving picture around the theme of minibeasts. You will be exploring using levers, sliders, pivots and mechanisms to make a picture, themed around minibeasts which move.

This half term, the Year 1 teachers would like you to create some designs of a picture of a minibeast which moves. Try to be creative and use a variety of different materials to make your minibeasts. You could even try to make a moving picture of a minibeast! We will be using your designs and creations to make a class display! The best class display will get a class prize! So do you want to take part?!

Your Task: Design a moving minibeast of your own. Take some ideas from the pictures below. If you really wish, you could even make a moving minibeast picture. Remember to be as creative as you like and think about all the different ways you could make your picture move.

Your special project is due Monday 28th February 2021
