## Message from Mrs Denham & Miss Court

***Dear Parents and Carers,***

As you will know, there are a series of teacher strikes planned across February and March. The first of these is on Wednesday 01/02/2023. We are confident, at the moment, that we will have enough staff in school to cover all classes and keep Marish and Willow open on that day.

In the unlikely event that more teachers go on strike than we anticipate, we will let you know as soon as we have this information so that you can make arrangements. However, for the moment, it is likely to be 'business as usual'.

We appreciate your support in this matter,

***Mrs G. Denham***  
***Executive Head Teacher***

## School Choir

Our school choir sang at the end of year Slough Community Forum meeting. Many of the partners sang along too.

Over 200 people came together to celebrate the successes of 2022 in the Slough Community Forum End of Year gathering.

The celebrations, which took place on December 14, were held at Arbour Park Stadium in what guests have said was a 'fantastic event' with a 'great opportunity for community organisations to network with partners and meet potential volunteers'.

Slough CVS's CEO Ramesh Kukar opened the event and Slough Borough Council leader James Swindlehurst thanked the voluntary and community sector for their valuable contribution.

Volunteers have been giving 'much-needed support' during the cost of living crisis amongst other challenges people are experiencing.

Over 40 stands from local businesses and groups were present and the car park was 'overflowing' with the number of people attending.

The event closed with a performance by the Marish Primary School Choir group, inspiring many partners and community groups to sing along to Christmas carols.

On the day, Slough CVS received 100 per cent overall positive feedback.

One attendee said: "This is the best networking session I have ever been to."

Another said: "I took away so much information."

With one keen volunteer adding: "I am here today because I want to volunteer for my community."

## E-Safety

At National Online Safety, we believe in empowering parents, carers and trusted adults with the information to hold an informed conversation about online safety with their children, should they feel it is needed. This guide focuses on one game of many which we believe trusted adults should be aware of. Please visit [www.nationalonlinesafety.com](https://www.nationalonlinesafety.com) for further guides, hints and tips for adults.

### What Parents & Carers Need to Know about

# OF WORLD WARCRAFT

**AGE RESTRICTION 12+**

#### WHAT ARE THE RISKS?

World of Warcraft originally launched way back in 2004, and since then the game has blossomed into a major entertainment property. It's spawned spin-off novels, merchandise and even a Hollywood movie adaptation – but why are we still talking about it in 2023? World of Warcraft's most recent iteration, Dragonflight, launched last November and marks the game's ninth major expansion. This latest addition has attracted a whole host of lapsed players back to the game – as well as newcomers jumping into the realm of Azeroth for the first time.

#### ALWAYS ONLINE

World of Warcraft is an MMORPG, which stands for Massively Multiplayer Online Role-Playing Game. Players create a character and head off on mythical quests to earn rewards and become more powerful. The game's environment is absolutely vast, and it can only be played online on PC or Mac – so there's a high probability of young Warcraft fans wanting to monopolise the family computer.

#### REGULAR EXPANSIONS

As is common with many MMORPGs, World of Warcraft's developers, Blizzard, release regular expansions for the game (usually every 18 months to two years). So although there's still plenty of content for young players to experience right now, there will almost inevitably be a requirement to continue buying future expansion packs, which tend to cost around £50.

#### IN-GAME PURCHASES AND SUBSCRIPTIONS

Just like its genre contemporary Final Fantasy XIV, World of Warcraft requires a monthly subscription fee to play. It's currently £3.99 per month (although you can get it cheaper by signing up to a longer subscription). There are also many items which can be purchased from the in-game store that don't affect gameplay, but instead offer cosmetic alterations to a player's character.

#### VOICE AND TEXT CHAT

Because World of Warcraft is played exclusively on PCs and Macs, it's easy for users to type out text messages if they aren't comfortable using voice chat. If you'll forgive the pun, that's a double-edged sword because – although there's less chance of them being harassed verbally – it puts young players at increased risk of being trailed or receiving spam through the in-game messaging function.

#### SIMULATED VIOLENCE

The fact that World of Warcraft is almost 20 years old means that even its most violent battles look slightly cartoonish compared with the level of authenticity in many more modern games. The exception tends to be Warcraft's in-game cutscenes: animated sections which move the plot onto the next stage. These offer more realistic visuals, but they still aren't overly gory or scary.

#### POTENTIAL FOR ADDICTION

World of Warcraft can trigger a powerful "just one more quest" mentality in players (especially young ones) as they rush to secure the next dopamine hit from levelling their character up or earning a new item or weapon. It's also a game that doesn't have a definite "end" because as soon as a player finishes levelling up one character, they can start afresh with another one.

### Advice for Parents & Carers

#### MANAGE PLAYTIME

World of Warcraft can be an extremely enjoyable game to play with friends, but it's important that your child doesn't let their adventures crowd out school work, socialising or anything else they also enjoy. You could, for example, consider imposing playtime limits – such as a set number of hours to play Warcraft per week, or restricting it to particular days or just weekends.

#### MAKE IT A REWARD

If your child is excited about getting the next World of Warcraft expansion, you could consider using it as a reward for completing their weekly tasks (you could even call them "quests") like tidying their room or doing their homework. This will demonstrate that you're happy for them to play the game but will also help them to build good, productive habits, reinforcing that hard work earns rewards.

#### SIGN UP FOR THE FREE TRIAL

Warcraft's monthly subscription effectively "pays" for the regular new content, but there's also a sizeable free trial that lets new players explore the world of Azeroth without paying a penny. Players can play up until level 20 for free, which is easily several hours' worth of gameplay. If your child does take this option, we'd suggest minimising in-game spending by not linking a bank card to their account.

#### REMEMBER THE AGE RATING

Due to mild violence and the occasional use of offensive language, World of Warcraft has been rated as appropriate for players aged 12 and over by PEGI (the Pan-European Game Information system, which gives games their age certificate). It isn't really suitable for anyone below that age, so you may potentially have to explain this reasoning to your younger children if they want to play it.

#### ADVENTURE TOGETHER

Warcraft can certainly be addictive, but playing it together is also a great way to spend time with your child. The game's focus on cooperative questing and battling enemies can make it feel like you've accomplished something as a team, and you'll also be in a prime position to spot any early signs of addiction. Just remember to apply gaming time limits to yourself as well as your young ones!
