E-Safety

Helping children and young people with MANAGING DEVICE STRESS AND ANXIETY

WHAT ARE THE RISKS?

Social media can bring people together in hugely positive ways. Sadly, it does also have a darker side, including 'flame war' arguments which can escalate quickly and have hurtful consequences. With so many people looking on, 'group shaming' situations are also common – while there are continual opportunities for young people to compare themselves negatively with other social media users.

Be kind to yourselves as parents and carers. Remember that we're all in the same boat, trying to safely guide our children through this complex, fast-moving digital environment. Getting into the habit of having natural, relaxed conversations with your child about their online life (and yours) can level the playing field and make it far easier for them to open up to you about any concerns.
