

# Special Project

## Year 3

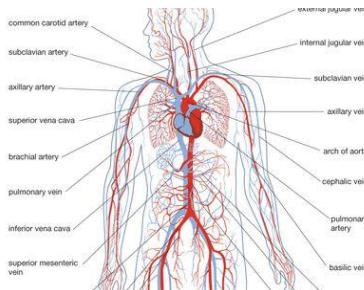

During Spring 2, year 3 children will be learning about animals including humans.

During the February half term, we would like you to choose a topic related to animals or humans, research about it at home and showcase what you have learnt, using a computing method. For example, PowerPoint or video.

**The best projects will be featured on the school website!**

Here are some ideas for your project:

- Research the human body and create a poster on it, using Microsoft Word or Powerpoint.

- Research the animals found in countries around the world and create a documentary/video on it.
- Research the senses of different animals and compare these to humans. Create a poster on this using PowerPoint.

**Remember to present your project in a way that will be eye-catching and attractive**

**Your special project is due on 23<sup>rd</sup> February 2026.**

**We look forward to receiving your exciting projects!**
